Woodward's findings are shocking and deeply disturbing. He shows how corporations have used their vast wealth and power to corrupt the political system, buy elections, and silence critics. He also reveals how they have used their control over the media to spread propaganda and manipulate public opinion.

The result is a system that is rigged in favor of the wealthy and powerful, while the rest of us are left behind. Woodward shows how this corporate

coup has led to a decline in living standards, a rise in inequality, and a loss of faith in democracy.

But Woodward also offers a glimmer of hope. He shows how we can fight back against the corporate coup and restore democracy. He calls for a new movement of citizens who are willing to stand up to corporate power and demand change.

Big Chickens Fly the Coop is a must-read for anyone who wants to understand the threats to our democracy and what we can do to save it. Woodward's reporting is meticulous and his s are undeniable. This book is a wake-up call for all of us who care about the future of our country.
