In the year 2042, the world as we know it came to an end. A global pandemic wiped out most of the population, and the survivors were left to fend for themselves in a shattered world. In *Tales From The End Of The World*, we follow the stories of a group of survivors as they struggle to rebuild their lives in the aftermath of the apocalypse.

There's John, a former engineer who now leads a group of survivors in a small town in the Midwest. Mary, a doctor who is haunted by the memories of her patients who died in the pandemic. And Sarah, a young woman who is trying to find her place in a world that has been turned upside down.

As the survivors struggle to survive, they must also come to terms with the loss of their loved ones and the world they once knew. They must learn to

forgive themselves and others, and to find hope in a world that seems hopeless.

Tales From The End Of The World is a haunting and evocative novel that takes us on a journey through the ruins of our future. With vivid prose and unforgettable characters, this book will stay with you long after you finish it.
